

Havoline® Formula SAE 15W-40 and 20W-50

Passenger Car Motor Oil

Product Data Sheet

Customer benefits

Long engine life

Proven metallo-organic anti-wear additive system protects engines under all operating conditions by providing excellent wear control. Multigrade viscosity provides additional protection against wear under high temperature operating conditions.

Maintains high power and performance

Metallic detergent and ashless dispersant additive system maintains high power and performance by providing excellent control of piston and ring deposits under high temperature conditions.

Saves on maintenance costs

High thermal stability and oxidation resistance provides excellent protection against in-service oil degradation that contributes to filter blocking and sludge formation in the oil galleries, crankcase and valve train.

Low oil consumption

Highly shear-stable viscosity index improver controls oil flow through the piston rings by maintaining high-temperature oil viscosity within the ring belt area in all services.

Applications

- Naturally aspirated gasoline engines in passenger cars and light commercial vehicles.
- Four-stroke gasoline engines in portable power equipment where the manufacturer recommends conventional passenger car motor oils.

Not recommended for use in engines that require ILSAC or ACEA-classified oils, in turbocharged engines, in CNG or LPG-fuelled engines, in any diesel engines or in motorcycle engines.

Performance standards

- API SL (licensed)
- API CF

Product description

- Highly shear-stable, multigrade gasoline engine oil formulated from selected base fluids for use in passenger car and light truck engines requiring API SL or lower performance lubricants and where SAE 15W-40 or 20W-50 viscosity grading is acceptable.

Typical test data

| HAVOLINE® FORMULA | RESULTS | |
|----------------------------------|---------------|---------------|
| SAE Grade | 15W-40 | 20W-50 |
| Product Code | 500736 | 500259 |
| Base No., D2896, mg KOH/g | 5.9 | 5.9 |
| Phosphorus, m % | 0.11 | 0.11 |
| Sulfated Ash, m % | 0.95 | 0.95 |
| Viscosity, | | |
| mm ² /s @ 40°C | 113 | 153.2 |
| mm ² /s @ 100°C | 15 | 17.7 |
| Viscosity Index | 134 | 127 |
| Zinc, m % | 0.12 | 0.12 |

This bulletin was prepared in good faith from the best information available at the time of issue. While the values and characteristics are considered representative, some variation, not affecting performance, can be expected. It is the responsibility of the user to ensure that the products are used in the applications for which they are intended.
