

Havoline® Motor Oil SAE 20W-50

Passenger Car Motor Oil

Product description

Havoline® Motor Oil is a quality engine oil suitable for use in a wide range of passenger car and light-duty commercial vehicle gasoline engines where API SG or lower performance lubricants are required and SAE 20W-50 viscosity is acceptable.

Customer benefits

- **Long engine life**
Proven metallo-organic anti-wear additive system helps resist wear under all operating conditions by forming a protective layer on contact surfaces. Multigrade viscosity provides additional protection against wear at start-up and under high temperature operating conditions.
- **Preserves power and performance**
Metallic detergent and ashless dispersant additive system helps preserve power and performance by providing good control of piston and ring deposits.
- **Optimized maintenance**
Good thermal and oxidation stability helps resist in-service oil degradation that contributes to filter blocking and sludge formation.

Applications

- Passenger car and light truck gasoline engines where oils of up to API SG performance are required.
- Industrial and marine applications of passenger car type gasoline engines where oils of up to API SG performance are required.

Not recommended for use in gasoline engines that require API SH or higher performance or ACEA-classified oils or in any gas-fuelled (CNG or LPG) engines, in any diesel engines or in any motorcycle engines. API SG performance oils are intended for use in vehicles manufactured before 1994.

Approvals, performances and recommendations

Performance standards

- API SG/CD
