

Techron[®] Concentrate Plus

Premium performance gasoline fuel system cleaner

Product description

Techron Concentrate Plus is a premium performance gasoline fuel system cleaner. Formulated with Chevron's advanced polyether amine (PEA) technology, it offers complete fuel system treatment in gasoline passenger cars, vans and light trucks.

Techron Concentrate Plus is designed to aid the removal of harmful deposits from fuel injectors, carburetors, inlet valves, spark plugs and combustion chambers found in port fuel injected (PFI) and carburettor engines. Techron Concentrate Plus is compatible and protective in many commercially available ethanol blends such as E10 and E85 fuels where it helps provide acid and corrosion protection.

Customer benefits

One tank of gasoline fuel treated with Techron Concentrate Plus offers:

- Improved fuel economy by aiding the removal of harmful fuel injector, spark plug, carburettor and intake valve deposits
- Restored engine power, acceleration and performance
- Better cold start performance
- Reduced deposit-related knock and ping
- A reduction in harmful exhaust emissions
- Safer storage and handling as the product is classified as combustible rather than flammable

Product highlights

- **Designed to improve fuel economy performance**
- **Helps restore engine power and acceleration**
- **Aids cold start performance**
- **Offers deposit-related knock and ping protection**
- **Promotes exhaust emissions reduction**
- **Safe for use with 3-way catalyst, SCR systems and particulate filters where fitted**

Applications

Techron Concentrate Plus is designed for:

- Spark ignition four-stroke engines fuelled by gasoline, ethanol, gasoline/ethanol blends in passenger cars, vans and light trucks
- Four-stroke outboard motors
- 2-stroke engines

Techron Concentrate Plus is not recommended for:

- Diesel engines
- Aviation use

Techron Concentrate Plus:

- Is compatible with many commercially available gasoline/ethanol blends
- Does not contain sulphur
- Will not harm catalytic converters, oxygen sensors, 3-way catalyst, SCR systems and particulate filters where fitted
- Will not contribute to engine crankcase sludge

Approvals, performance and recommendations

Recommendations

- Techron Concentrate Plus technology is used by many major vehicle manufactures and servicing companies.

Product maintenance and handling

Treatment level

- We recommend to add one 300ml bottle of Techron Concentrate Plus to one tank (50-70 litres) of gasoline every 8,000 miles/13,000 kilometers, for higher mileage vehicles we recommend treatment every 6 months to maintain engine cleanliness. Do not exceed more than 2 treatments between oil changes.

Note: Always confirm that the product selected is consistent with the original equipment manufacturer's recommendation for the equipment operating conditions and customer's maintenance practices.

Health and safety

Techron Concentrate Plus must be kept away from heat and sources of ignition

- Always replace cap after use
- Keep away from children
- Avoid release into the environment
- Avoid contact with skin and eyes. In case of accidental contact with eyes, wash thoroughly with running water for 10-15 minutes. If irritation develops, seek medical advice. Wash exposed areas of skin thoroughly with water and soap if available
- If swallowed, do not induce vomiting, seek medical advice immediately and show package label

Typical test data		
Test	Test methods	Results
Shelf Life: 60 months from date of filling indicated on the product		
Appearance	Visual	Clear, bright liquid
Relative density at 15°C	ASTM D1298	0.873
Flash Point, PM, °C	ASTM D93	175

The information given in the typical data does not constitute a specification but is an indication based on current production and can be affected by allowable production tolerances.
