Havoline® SAE 40

Product description

Engine oil designed to meet the requirements of passenger car and light truck gasoline engines where API SF performance is required.

Customer benefits

- Provides good engine protection
 Metallo-organic anti-wear additive system forms a protective layer on contact surfaces to help control wear.
 Effective corrosion inhibitors help protect against rust and corrosion.
- Trouble-free operation
 Combination of detergent and dispersant additives helps control piston and ring deposits that can adversely affect power and performance.

Applications

 Passenger car and light truck gasoline engines where oils of SAE 40 viscosity grade and of up to API SF performance are required.

API SF oils were designed for use in 1988 and earlier model year vehicles. Use in later vehicles generally is not recommended.

Not recommended for use in: engines where ACEA or CCMC classified oils are specified, in gas (CNG or LPG) fueled engines, in diesel engines or in motorcycle engines.

Product approvals, performance and recommendations

Suitable for use where AP SF or API SF/CD oils are specified for use in gasoline engines.

Havoline® SAE 40

Passenger Car Motor Oil

Typical test data

HAVOLINE® SAE 40	RESULT
SAE Grade	40
Product Code	500144
Base No., D2896, mg KOH/g	6.8
Phosphorus, m %	0.05
Sulfated Ash, m %	0.85
Viscosity, mm ² /s at 100°C	14.4
Zinc, m %	0.06

ENVIRONMENT, HEALTH, and SAFETY. Information is available on this product in the Material Safety Data Sheet (MSDS) and Customer Safety Guide. Customers are encouraged to review this information, follow precautions, and comply with laws and regulations concerning product use and disposal. To obtain a MSDS for this product, visit the Product Information Center.

This Product Data Sheet (PDS) was produced for the Africa, Middle East and Pakistan region in good faith from the best information available at the time of issue. The specific information included may not directly reflect the local market or conditions. While the values and characteristics are considered representative, some variation, not affecting performance, can be expected. For the most up-to-date, country-specific information, please contact your local customer service center.
