

Havoline® Radiator Coolant

Product description

Havoline® Radiator Coolant is a carboxylate corrosion inhibitor and mono ethylene glycol based coolant for use in automotive and light duty diesel engine applications. Havoline Radiator Coolant contains inhibitors providing protection against corrosion when used as recommended. There is no need to add water.

Customer benefits

Havoline Radiator Coolant contains mono ethylene glycol and helps to prevent freezing and overheating. It comes ready for use.

- Provides protection against corrosion.
- Protects all metals including aluminium
- Prevents scale build up
- Compatible with conventional (red) antifreeze

Havoline® Radiator Coolant

Applications

- Havoline Radiator Coolant is recommended for applications where antifreeze protection is not required.
- Naturally aspirated and turbocharged gasoline engines in passenger cars.
- Light duty truck diesel engines.
- Passenger car and light truck spark ignition engines.
- Havoline Radiator Coolant should not be mixed with other engine coolants. Most coolant blends are based on carefully balanced mixtures of various corrosion inhibitors. Mixing of coolants with different inhibitor packages can lead to loss of corrosion protection.

Product approvals, performance and recommendations

Performance standards

- Havoline Radiator Coolant provides protection from corrosion

Havoline® Radiator Coolant

Typical test data

HAVOLINE® RADIATOR COOLANT	TEST METHOD	RESULTS
Product Code		510573
Typical Shelf Life: 48 months from date of filling indicated on the product label*		
Appearance		Red
pH	ASTM D1287	8.5
Density @ 20°C		1.005
Reserve Alkalinity (pH 5.5)	ASTM D1121	0.83
Freezing Point, °C	ASTM D1177	-2
Silicate, %**		None

* Typical Shelf Life: (a) if stored under normal conditions and (b) can be extended after re-testing.

** As anhydrous alkali metasilicate

ENVIRONMENT, HEALTH, and SAFETY. Information is available on this product in the Material Safety Data Sheet (MSDS) and Customer Safety Guide.
