

# Chain & Bar Oil

Chainsaws and chain driven machinery

## Product description

**Chain & Bar Oil** is a tough, tacky lubricant designed for lubrication of the chain, bar and sprocket on all types of chainsaws and chain driven machinery. It is made from highly refined high viscosity index base oils along with a highly effective tackiness agent to resist throw-off.

## Customer benefits and product features

### Customer benefits

#### Helps protect metal surfaces

The use of special anti-wear additives helps increase working life of the chain, bar and sprocket.

#### Less waste

The tacky quality of the product helps minimise sling-off from the chain.

#### Effective performance

Helps keeps the saw clean by flushing away wood chips, gum and dust and by removing pitch and helping prevent further pitch build-up on the chain and bar. This helps minimise the need for chain adjustment and chain replacement.

## Applications

Can include:

- Chain, bar and sprocket on all types of chainsaws, using either hand operated or automatic oilers.
- Chain driven machinery, including lumber carriers and farm equipment.

## Product approvals, performance and recommendations

- N/A
